Sept 15, 1968

Dear Mr. Weisberg,

I went to the office of "Insight on the News" today. The office is in a small building; it consists of a waiting room and 3 inner offices. There were two women who I spoke to - a Cuban and an American. I had no trouble with them because I am only 21 and look about 16. They were very nice to me and told me to pass out the pens to my friends. Under the

circumstances, ~~I~~ I did not feel it was wise to ask for a subscription. They gave me the back issues for free, and told me to come in for more, if I am interested. They asked if I was interested in specific issues. I said that I was not - so the Cuban picked out "the most interesting ones." She also suggested that I listen to Alan Courtney on the radio.

If you would like to acquire further issues of this insanity, please let me know, and I will get them for you.

Penabay has also written booklets and made tape-recordings. You will notice these ads in the magazines. If you want them, I will get them for you. Be specific about what you want, because we have not returned any of the issues. Sincerely,

(over) Karen Goldberg

P.S. In order to acquire more magazines, they will inevitably ask me what I thought of them. What do you suggest I say?

This issue is the latest
It hits the stands on Thurs
I plan to tape courtney's
show. If there are any
specific questions you'd like
answered by Courtney or Penabay,
I can call them in on the
show and send you the
response on tape see Pg 17
the June 15 issue
has an article
on R.F.K also Sept 15
Pg 3, and aug. 1-15 Pg 3

It amazes me. These people
list everybody from Jacqueline
Kennedy to Donald Duck as
"commie". These magazines
are complete lunacy. They
provoke both terror and
laughter but mostly
nausea
